THE ASTONISHING TALE OF GEORGE VON NOTHING

At the bottom of a deep bay is a small village called Shadowhill. Due to the high mountains in the surroundings, the sun only reaches down to the village every five years, at the summer solstice, a phenomenon that occurs just when our story takes place. The year is 1960.

One day a stranger shows up in the godforsaken village, and claims that his name is George von Nothing. Without much fuss, he is taken into the community of the illustrious circle flocking at the village restaurant The Cod. George puzzles and charms everyone he meets and makes them open up their innermost hidden places.

When the sun finally reaches down to the village and everything turns into a dazzling celebration, the great magician George von Nothing performs his last astonishing magic trick for a stunned audience.

After which life in Shadowhill side returns to its pleasant little course again.
Almost.

MAELSTROM

On a cold January night, Adam Gärde is stabbed and bleeds to death at a bus stop in Stockholm. A messy guy with addiction problems – but the murder is more complicated than it seems and affects everyone in its vicinity: the victim's mother and girlfriend, friends, the police, the killer. Each character has its own unique voice, and the author manages to elevate and make each one of them into flesh and blood. We are dragged into a whirlpool of human experiences, secrets, sorrows and hopes.

In her suspenseful debut, Charlotte Al-Khalili portrays with great credibility how several people each carry a piece of the puzzle to the crime. But who will see the big picture? Who will arrive at the final answer? And who will solve the murder mystery and understand the inevitable consequences?

Maelstrom is an innovative suspense novel, a page turner with an intriguing true-crime atmosphere.

*A maelstrom is a violent whirlpool,
swirling everything in its vicinity
towards destruction.*

CHARLOTTE AL-KHALILI

Charlotte Al-Khalili writes contemporary crime fiction and suspense. With a bachelor's degree in legal science and a passion for true crime, her novels have a realistic style with dark undertones. Inspired by the newspaper headlines, she often depicts how regular people get entangled in circumstances beyond their control, and their struggle to navigate uncharted waters.

"Mats Strandberg's greatness lies in the love and care with which he creates the characters that inhabit his dark world – but he is just as good at killing them."

A few days earlier, Joanna and her brother Zach start their sailing vacation together. They haven't seen each other in years when they finally reunite on their father's old jewel. The sea lies calm as a mirror and the archipelago could not be more beautiful as the two of them weigh anchor. Joanna is carrying a heavy grief but is looking forward to the feeling of freedom and tranquillity the sea has always brought her. The idea that someone cold heartedly had set a living being on fire spread like a disgusting stench in Walla Hammar's brain.

When the nationalist folklore society Bredablick comes to Gotland to party and explore local island culture, it is the starting point for a series of heinous racist crimes. What horrific things are going on here? The seventy-year-old woman Walla Hammar wonders, whose self-imposed life mission is to keep her part of the island in balance.

Walla's view is most of all questioned by her son Pelle, who together with Najma Rumi, a young reporter on P4 Gotland, starts his own investigation. They believe in facts and scientific methods.

But nothing is as simple as it looks. Old crimes and new injustices are brewing and soon life will be extremely dangerous for everyone involved.

What if there was a pill to cure prolonged grief?

Elizabeth's heart is broken when her son dies of a serious heart defect. A few years later, the pharmaceutical company she works for is the first in the world to develop a pill directly targeting grief. Professor Thorsten Gjeldsted, who studies its effects at Aarhus University, suspects the data is being manipulated to hide a disturbing side effect. Together with two students, he tries to find out who is behind it.

What happens when we turn the existential pain of losing a loved one into a mental disease? *Blue Notes* is an intriguing novel about how far we are willing to go to avoid pain, and if grief is the prize we pay for love.

NOT DEAD YET

Eighty-four-year-old Elis wakes up at the cardiac intensive care unit after a strained afternoon celebrating Christmas Eve with his family. From the hospital bed he relives moments of his life with new eyes. He gets to meet those who have meant the most to him. The one he called Mother, the one he called Mom, his first love and the woman he ended up marrying. He gains access to those crucial moments in his life: Holidays spent with his beloved foster family in Dalarna, the challenging task of parenting a child, being a husband, his career at the Tele Communications Network/Televerket, and relishing the gift of music. At the hospital he befriends the vibrant male nurse Tony, who dares to joke about death.

Not Dead Yet is both a gripping elegy over an era that is no more, and a celebration to life itself.

SPARKLE, DAZE, AMAZE

Allow us to present Penny Löwe, the literary wonder kid who, at the age of twenty, wrote a novel which everyone spoke of and which won the most prestigious literary award in Sweden.

Once a shooting star, Penny is now back from a decadent stay in London, without ideas for the new novel and broke after spending the whole advance. The creative trip she imagined it to be, did not go as planned.

But her friend Lola comes up with a solution. She will help Penny find her inspiration again. Together they construct an equally unconventional as life-threatening plan. Who is Lola – a gift from above or a muse from hell?

Sparkle, Daze, Amaze is an entertaining, fast-paced and playful novel about destructive friendships, writer's block and the pursuit for the "genuine literature". Combining quick-witted prose with psychological depth Jenny Jägerfeld brings the reader on an expedition of identity, authenticity and autofiction's role for the contemporary novel: must a writer have lived to write?

THROW A PARTY!

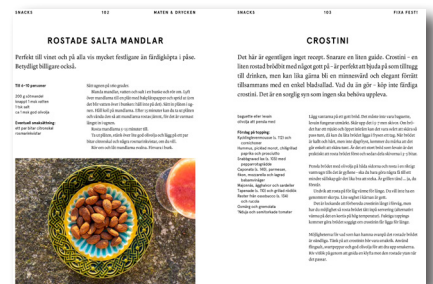

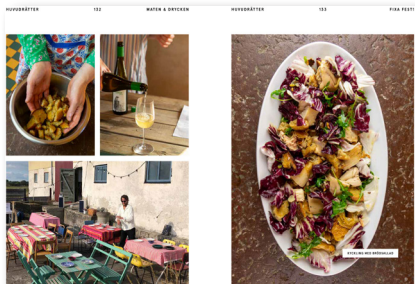

Isn't it wonderful to be invited to a party! To meet new and old friends, mingle, laugh and eat delicious food. You can relish, and be inspired by the memories of a great party for a long time.

The book *Throw a Party!* is as inspiring as a piñata filled with creative tips, experienced advice, and smart thoughts on how to make the best party.

This is not a cookbook, although it does contain some great recipes. It's a party book that takes you by the hand and guides you through all the party's conceivable – but not obligatory – elements. The invitation, the drinks and hors d'oeuvres, the room, table setting and decorations, fun themes and twists that make guests mingle a little extra, the food, the music, the dance and the night food, it's all there. So, it's time to start thinking about who you want to invite!

THROW A PARTY!

174 PAGES

Lotta Köhlhorn and Håkan Östlundh have never hesitated over the decision to throw a party. They have invited seventy guests to a Christmas party on July 24 and they refurnished the living room to an air plane to have an “air party”. They aim high with mingle parties, celebratory dinners and dance events. It is often a success. But they have also learned to detect the traps and they will never let fixing a party become a burden.

Lotta is one of Sweden’s most beloved designers and has also written several books about textile design (*Rapport a book about making patterns*), food (*Fruit & Vegetables and Color*) and how to make Christmas perfect (*Lotta’s Christmas*).

Håkan is an established crime writer and has written detective stories taking place on Gotland (the Fredrik Broman series) and the highly acclaimed thriller series the Prophet trilogy. Håkan also writes for film and tv.

Bianca Kronlöv is one of Sweden's most interesting voices. She is an actor and comedian and has created a platform as one who is not afraid to express her thoughts. “Short, cheeky, empathetic, provocative – something to laugh out loud to and to be touched by. Bianca Kronlöf’s *Letters to Men* is a future feminist standard work for men. I am proud and enormously happy to work with this talented, serious and fun author.”

SARA NYSTRÖM, PUBLISHER AT ALBERT BONNIERS, SWEDEN

“Bianca Kronlöf primarily emphasizes individual responsibility. What we do matters, and it is our duty to intervene. When it comes to the issue of men’s violence, it is not enough for a few men to get involved in the issue. A first step to change can be to read this book, which efficiently and pedagogically punctures the defenses and excuses we men use to avoid calling ourselves or showing moral courage.”

In *Why Democracy*, Åsa Wikforss clarifies what role knowledge has in a democracy and explains why and in what way the threats to knowledge represents a threat to democracy.

The book aims to spread knowledge about one of our times most important questions and to give us the tools necessary to shield democracy in this post-truth era.

ALTERNATIVE FACTS – ON KNOWLEDGE AND ITS ENEMIES

We live in the era of 'post truth' and as the world is being flooded with fake news, conspiracy theories and science denial we look for a solution.

Alternative Facts explains what distinguishes knowledge from mere opinion, why it is so easy to sow doubt and disinform, why truth is so hard and how the social nature of human knowledge makes us vulnerable to the manipulation of trust.

"Knowledge stands at the center of human existence, it is what sets us apart from the other animals and is what makes human cooperation and progress possible. When knowledge is under threat we are all under threat. Philosophy gives us the tools we need to understand the challenges and meet the enemies of knowledge, and I felt that as a philosopher it was time to step up to the plate."

Åsa Wikforss, on writing the book

"A thorough, sensible, and beautifully reasoned analysis of one of the most pressing issues of our time."

Lone Thiels worked for many years as a Danish foreign correspondent in London, reporting on the royal household and the seemingly romantic, but in reality tragic, story of the girl from the people who married the prince. Her knowledge of contemporary British politics and her view of the English royal family and the events surrounding Diana is completely unique.

DIANA

On the night of August 31, 1997, Princess Diana lost her life in a violent car accident in Paris. The shocking news caused millions of people around the world to mourn the loss of the People's Princess, an icon and an extraordinary woman who had managed to touch their hearts like no other in the British royal house. But above all, the news meant that a father – Prince Charles – had to make the arduous journey to his two little boys' rooms to wake them up with the news that their mother had died.

Lone Thiels writes about the woman who, at the age of just 20, was married into one of the most tradition-bound and closed royal houses in the world. A royal house that rarely showed emotion and in many ways became a straitjacket for Diana until she found the courage to rebel.

MONSTERS IN THERAPY

A psychologist has disappeared. At her reception a collection of documents is found: a work journal, letters, research material and transcriptions of the therapy sessions she has conducted within the framework of a book project. In the notes we can follow the conversations with an identity-disordered doctor, a lesbian psychopath vampire, a manic scientist's dreaded offspring and a narcissistic dandy. They turn out to be some of the most iconic monsters of Gothic horror literature – **Dr. Jekyll**, **Carmilla**, **Frankenstein's monster** and **Dorian Gray** – and they struggle with timeless dilemmas that we can all recognize.

THE UNLIKELY MURDERER

For 34 years the unresolved murder of Swedish Prime Minister Olof Palme has haunted an entire nation – not to say the world. After 12 years of research that resulted in the book *The Unlikely Murderer*, journalist Thomas Pettersson brought the case to an end. He had not only written a bestseller, he had also solved the murder that had left the Swedish police perplexed.

The findings of Thomas Pettersson renewed the police investigation of Stig Engström in 2017, and it led to the final judiciary closure in June 2020.

THE LAST BLACK SALT

A dream without a beginning or an end.

A son and a father wander through a scorched landscape. They are on their way to the sea. Or have they already been there? Maybe they just want to find happiness. But do they have to walk through hell to get there or is everything just a dream? A dream without a beginning or an end. Where a son and a father wander not just in a scorched landscape but also in their inner life, with questions without words.

In *The Last Black Salt* Henrik Lange has taken the Swedish author Pär Lagerkvist's poetry and shortstories from Evil fairy tales and poured them into Cormac McCarthy's novel *The Road* and then mixed them all with Dante's *The Divine Comedy*. The result is a story about a wanderer to the light.
